2 Einführung

2.1 Zweck

Dieses Dokument beschreibt die REST API

2.2 Gültigkeit

Dieses Dokument ist währen des ganzen Projekts gültig und wird laufend erweitert

 $\overline{REST\ API}$ Datum: 22. November 2015 Version: 1.03

3 CRUD Service

```
3.1 Services
```

```
URI Path /services
Methods
          GET
```

3.2 JSON Response

```
id: <number>,
serviceName: <string>,
serviceModules:[ category:<string>, size:<string>, name:<string> },
...] },
}
```

3.3 Service

```
URI Path
            /services/{id}
\mathbf{Methods}
            GET, PUT, DELETE, POST
```

3.4 JSON Response

```
id : < number >,
serviceName: <string>,
serviceModules:[ category:<string>, size:<string>, name:<string> },
...] }
```

4 CRUD OrderedService

4.1 OrderedServices

```
URI Path /OrderedServices
Methods
          GET
```

4.2 JSON Response

```
id : < number >,
orderedServiceName: <string>,
```

```
identifiers:[\ id:<number>,\ uuid:<string>,\ category:<string>,\ size:<string>\ \},
}
4.3 OrderedService
             /OrderedServices/{id}
 URI Path
 \mathbf{Methods}
              GET, DELETE
4.4 JSON Response
id: <\! number >,
orderedServiceName: <string>,
identifiers:[id:<number>, uuid:<string>, category:<string>, size:<string>},
...] }
```
